

LEGACY RANCH INSPIRE ACADEMY

The middle school and high school students at Legacy Ranch created and hosted the First Annual Legacy Ranch County Fair this six weeks. The middle and high school students worked together to create the games and activities for the elementary kids. During the month of October, students earned money for behavior and completing their assignments. The money they earned was then used at the fair to play games and buy snacks. Each student also created works of art that were hung along the walls for everyone at the fair to see.

Students and teachers enjoyed a day full of laughter, fun, and excitement!
